Water play structure

item number

034024000**product description** (page 1)Water pump item no. 0-33130-001

Total height: approx. 1,17 m

Suction pipe connection 1 ¼ in (pipe diameter at least ¾ in), welded stainless steel construction, fully encapsulated pump housing, pump mechanism with roller and anti-friction bearing. During winter season, a removal of the upper housing and the handle is indispensable, (winter) cover panel for the bottom part is included with delivery.

Please note:

The installation of the water pump to a pressure water pipe requires a K&K Valve combination (item no. 0-33190-000 or 0-33195-000).

If the water supply to the pump (through a clock timer or similar) is interrupted, the pump handle must be safeguarded against operation (for example by the K&K pump latch, item no. 1040639). This prevents a handle setback due to an increasing negative pressure.

Please also consider the basic technical details given in the installation instructions (such as spacing, pipe diameters etc.); upon request, you will receive them directly from K&K or by downloading the corresponding PDF from www.kaiser-kuehne.com.

Flange tube item no. 1040065

for water pump fastening / water dispenser fastening, concrete-cast below playing surface.

Distributing table (0,50) item no. 0-33480-000

Area: 0,85 x 0,94 m

Total height: 0,65 m

Welded structure made of stainless steel with 2 water waste pipes. Conical stopper made of rubber with fixing device for total removal of water. Thickness of steel sheet: 2 mm at least/pipe Ø 38 mm. Distributing table is anchored using a separate flanged ring set in concrete. Anchorage with flange ring.

Price for pre-fabricated foundation (15166) and form blocks (15167) to compensate differences in elevation on request.
