

play equipment

Slide bedway (2,80 m) flange fastening

item number

041428001**product description** (page 1)

One-piece stainless steel structure with additional support for slide run-out section. Speed control by means of a waved section. Slide of low noise level thanks to trough-shaping. Slide installation either on a strip footing or another appropriate surface (wooden platform or planking) to be determined on site.

The waved section of the slide is equipped with a flange for support post fastening, both made from stainless steel.

For your planning, due to a possible sliding surface heating, please see to a north-east orientation of the slides or provide half-shade of trees.
