

play equipment

Collecting basin with water stopper

item number

033218000**product description** (page 1)

Welded structure made of stainless steel facilitating bearing attachment of the screw pump crank. Thickness of steel sheet: min. 2 mm/tube Ø 38 mm.

Anchorage by means of ring-shaped flange. With additional water discharge pipe with conical stopper made of rubber and fixing device for total removal of water.

At extra charge, there are appropriate ring-shaped concrete foundations (015165) for flange fastening and concrete form blocks (015170) for masonry works to compensate different levels or for a safe installation with loose fall protection surfacing (sand, gravel etc.).
