

play equipment **Spring see-saw**
item number **044231000**

product description (page 1)

See-saw construction: stainless steel
See-saw spring: special spring wire Ø 20 mm
Seat plate: high pressure laminate 20 mm

including ground anchorage

Please note

The soil characteristics of the impact area surrounding the equipment must have an appropriate level of shock absorption corresponding to a free height of fall of at least 600 mm (according to EN 1176-6).

For an easy level installation into synthetic surfacing, a tailor-made anchorage is available at extra charge (item no. 109219). With a temporary deinstallation of the playing equipment, the opening in the ground can be covered by an appropriate panel made from HPL.
