Platform combination

item number

021125501**product description** (page 1)Posts

Posts made from stainless steel tubes Ø 120 x 3 mm covered by non-detachable protective stainless steel caps. Upper ends of posts level with platforms are covered by welded-on circular blanks made from stainless steel.

Platforms

Platforms from boards of 30 mm thickness and all-round square-shaped joists 45 x 100 mm. Dried timber from Robinia, planed, milled and free from decay. Force-fitting fastening through specific stainless steel brackets with end-to-end bolt assembly.

Attachment parts

- infill panel made from highly weather-resistant coloured HPL (yellow)
- stepped handrail from stainless steel tubes, Ø 33,7 x 2 mm
- saddle roof, 45° inclination, made from highly weather-resistant HPL panels (royal blue), 13 mm thickness, fastening to stainless steel frame Ø 33,7 x 2 mm
- attachment slide, width 0,60 m, one-piece welded assembly, stainless steel sheet thickness: 2,5 mm, with roll-off prevention above the entrance section

For your planning, due to a possible sliding surface heating, please see to a north-east orientation of the slides or provide half-shade of trees.

Stainless steel metal components

Robinia timber is furnished with water-repellent, breathable protective coating. Besides protection from moisture, that treatment reduces crack formation. Thanks to a specific fastening adaptor, forces arising from the modular attachment parts are directly derived into the posts. Tamper-proof connections thanks to screws with security socket.
