

play equipment

Balance snake

item number

052036000**product description** (page 1)

Balancing structure: stainless steel/balancing surface with EPDM granulate covering, colour on choice

Compression spring: spring steel wire Ø 20 mm

Including ground anchorage

Please note

The soil characteristics of the impact area surrounding the equipment must have an appropriate level of shock absorption corresponding to a free height of fall of at least 600 mm (according to EN 1176-6).

For an easy installation into synthetic surfacing, a tailor-made anchorage is available at extra charge (item no. 109219). With a temporary deinstallation of the playing equipment, the openings in the ground can be covered by appropriate panels made from HPL.
