

play equipment

Balance exerciser on totter springs

item number

057012000**product description** (page 1)

Including ground anchorage

Please note

The device is optionally available as permanently installed public playground equipment (certified according to EN 1176) or as permanently installed outdoor fitness equipment (certified according to EN 16630).

If it is placed as fitness equipment, information on function and safety must be provided in close proximity. This can be done by means of an optionally available station signboard.

Approximate assembly values

delivery as a whole

The soil characteristics of the impact area surrounding the equipment must have an appropriate level of shock absorption corresponding to a free height of fall of at least 600 mm (according to EN 1176-6).

For an easy installation into synthetic surfacing, a tailor-made anchorage is available at extra charge (item no. 1090219). With a temporary deinstallation, the openings in the ground can be covered by appropriate HPL cover panels.
