

play equipment **Hill slide (3,00) with starting platform 0,20**

item number **041870501**

product description (page 1)

Posts

Posts made from stainless steel tubes Ø 12 cm covered by non-detachable protective stainless steel caps. Posts flush with platform level are made from stainless steel, covered by welded round plates.

Platform

Platform from boards of 30 mm thickness and all-round square-shaped joists 45 x 100 mm. Dried timber from Robinia, planed, milled and free from decay. Force-fitting fastening through specific stainless steel brackets with end-to-end bolt assembly.

Hill slide

- attachment slide, width 0,60 m, one-piece welded assembly, stainless steel sheet thickness: 2,5 mm, with roll-off prevention above the entrance section
- additional stainless steel support post beneath curved section, sliding course 45° to the right

For your planning, due to a possible sliding surface heating, please see to a north-east orientation of the slides or provide half-shade of trees.

Metal components: stainless steel

Robinia timber is furnished with water-repellent, breathable protective coating. Besides protection from moisture, that treatment reduces crack formation. Thanks to a specific fastening adaptor, forces arising from the modular attachment parts are directly derived into the posts. Tamper-proof connections thanks to screws with security socket.
