play equipment **Hill slide (4,00) with starting platform 0,20**

item number **041880501**

product description (page 1)

Posts
Posts made from stainless steel tubes Ø 120 x 3 mm covered by non-detachable protective stainless steel caps.
Upper ends of posts level with platforms are covered by welded-on circular blanks made from stainless steel.

Platform
Platform from boards of 30 mm thickness and all-round square-shaped joists 45 x 100 mm. Dried timber from Robinia, planed, milled and free from decay. Force-fitting fastening through specific stainless steel brackets with end-to-end bolt assembly.

Hill slide
Sliding segments made of stainless steel, welded to a two-part slide for transport reasons, including flange connection at the point of separation for easy assembly by screwing on site.Stainless steel support post for the curved sections.
Course: curved section to the left 27°, curved section to the right 54°, curved section to the left 27°

For your planning, due to a possible sliding surface heating, please see to a north-east orientation of the slides or provide half-shade of trees.

Metal components: stainless steel
Robinia timber is furnished with water-repellent, breathable protective coating. Besides protection from moisture, that treatment reduces crack formation. Thanks to a specific fastening adaptor, forces arising from the modular attachment parts are directly derived into the posts. Tamper-proof screw connections thanks to screws with security socket.
