

1. Assign location of equipment considering the space requirement.
2. Excavate soil for foundations, according to drawing.
3. Put bench steel frame into holes of foundations (mounting depth = playlevel is marked by strip)
4. Grout in foundations with compressed concrete PG75, chamfer the edges and fill with sand (according to EN 1176 - 1).
5. Release for play after concrete foundations have set.
